Internship Program

SYNTECXHUB

CREATE | THINK | SOLVE

Company Background

Syntecxhub is a forward-thinking company that bridges learning with practical experience. We provide internship projects across exciting fields like **Web Development, UI/UX Design, Frontend & Backend Development, Data Science,** and more, helping students gain real-world skills.

Our internships offer mentorship, hands-on tasks, and exposure to live projects, enabling students to enhance their knowledge, build confidence, and prepare for successful careers.

Instructions

- Share your internship status on **LinkedIn** and mention **@Syntecxhub**.
- Upload your **entire source code** to **GitHub**, creating a repository named: **Syntecxhub_Project_Name.**
- You will receive **weekly tasks** that must be completed and submitted via the **Submission Form** within the given time.
- **you are required to complete at least one project.** Completing **multiple projects** is optional but **highly encouraged**, as it **demonstrates initiative and a deeper interest in learning.**

Project - 1

NumPy Data Explorer

- Learned NumPy fundamentals – array creation, indexing, and slicing.
- Performed mathematical, axis-wise, and statistical operations on datasets.
- Applied reshaping and broadcasting techniques for efficient computation.
- Implemented save/load operations for NumPy arrays.
- Compared NumPy's performance with standard Python lists.

Project - 2

Pandas CSV reader & basic analysis

- Read CSV/Excel into DataFrame and inspect head/tail/types.
- Compute summary stats (mean, median, min, max, count).
- Filter rows, select columns and slice subsets.
- Save filtered results to CSV/excel.

Project - 3

Data cleaning utility

- Detect and handle missing values (drop / fill / impute).
- Fix incorrect dtypes (dates, numbers) and parse dates.
- Remove duplicates and standardize column names.
- Output a cleaned dataset and brief cleaning log.

Submission Details

- Each task consists of **three projects**. Every intern is **required to complete and submit at least one project** from each task.

- Completing all assigned weekly tasks is **mandatory** to successfully finish the internship. If an intern fails to complete the required projects, the internship will be considered **incomplete**, and the **certificate will not be issued**.

- Please ensure that all completed projects are submitted through the official **Submission Form** to confirm your **successful participation in the internship program**.
